What is Complete
Voice and Internet?

**TalkTalk
Business**

Ome

All-in

voice and internet
service for business

**TalkTalk
Business**

8-60 channels
of ISDN-quality voice
and up to 20Mbps of
internet access over the
same connection

**Flexible
solution**
allowing you to react
quickly to changing
business demands

**Reduce costs
and increase
efficiencies**
through
consolidation

**Future
proof**
your business
for emerging
technologies

Ideal for...

1 Businesses requiring up to 60 channels of voice and 20Mbps of internet access

2 Organisations looking to improve control of their overheads

3 Companies wanting to make the first move to IP Voice (SIP) without changing their ISDN phone system

4 Companies that have outgrown traditional solutions (i.e. using separate lines for ISDN and internet)

5 Businesses with changing demands in voice capacity (e.g. seasonal variation etc)

What does it cost?

Term	1 year	3 year
Connection	£699	£450
Porting	£50	£50
Monthly channel rental	£10.99	£10.99
Monthly internet	£50	£50
DDI	Free	Free
Calls	2000 minutes to UK landline and mobile numbers per channel	2000 minutes to UK landline and mobile numbers per channel

So how does that help you?

Easy move to IP Voice

Fully managed and adaptable, including setup, secure hardware and installation – compatible with ISDN and IP phone systems

Reliable and secure dedicated connection, with 24/7 UK support and Business Grade SLAS

Channel quantities can be flexed up or down on demand between 8 and 60 channels

Increase efficiency and reduce overheads by delivering voice and Internet via a single connection

ISDN-quality voice call features with the option of presentation number; selective outgoing call barring and customer controlled call diversion

We're here to help

1 600 strong UK-based team provide specialist support
